 README

# Official Documentation for the Binance APIs and Streams.

- Official Announcements regarding changes, downtime, etc. to the API and Streams will be reported here: [https://t.me/binance\\_api\\_announcements](https://t.me/binance_api_announcements)
- Streams, endpoints, parameters, payloads, etc. described in the documents in this repository are considered **official** and **supported**.
- The use of any other streams, endpoints, parameters, or payloads, etc. is **not supported**; use them at your own risk and with no guarantees.

Name	Description
<a href="#">enums.md</a>	Details on the enums used by REST and WebSocket API
<a href="#">errors.md</a>	Error codes and messages of Spot API
<a href="#">filters.md</a>	Details on the filters used by Spot API
<a href="#">rest-api.md</a>	Spot REST API ( /api )
<a href="#">web-socket-api.md</a>	Spot WebSocket API
<a href="#">fix-api.md</a>	FIX API
<a href="#">web-socket-streams.md</a>	Spot Market Data WebSocket streams
<a href="#">user-data-stream.md</a>	Spot User Data WebSocket streams
<a href="#">sbe_schemas</a>	Spot Simple Binary Encoding (SBE) schemas
<a href="#">testnet</a>	API docs for features available only on SPOT Testnet
<a href="#">Margin Trading</a>	Details on Margin Trading
<a href="#">Derivative UM Futures</a>	Details on Derivative UM Futures ( /fapi )
<a href="#">Derivative CM Futures</a>	Details on Derivative CM Futures ( /dapi )
<a href="#">Derivative Options</a>	Details on Derivative European Options ( /eapi )

Name	Description
<a href="#">Derivative Portfolio Margin</a>	Details on Derivative Portfolio Margin ( /papi )
<a href="#">Wallet</a>	Details on Wallet endpoints ( /sapi )
<a href="#">Sub Account</a>	Details on Sub-Account requests ( /sapi )
<a href="#">Simple Earn</a>	Details on Simple Earn
<a href="#">Dual Investment</a>	Details on Dual Investment
<a href="#">Auto Invest</a>	Details on Auto Invest
<a href="#">Staking</a>	Details on Staking
<a href="#">Mining</a>	Details on Mining
<a href="#">Algo Trading</a>	Details on Algo Trading
<a href="#">Copy Trading</a>	Details on Copy Trading
<a href="#">Portfolio Margin Pro</a>	Details on Portfolio Margin Pro
<a href="#">Fiat</a>	Details on Fiat

<a href="#">sbe_faq</a>	Information on the implementation of Simple Binary Encoding (SBE) on the API

## Change log

Please refer to [CHANGELOG](#) for latest changes on our APIs and Streamers.

## Useful Resources

- [Postman Collections](#)
  - Postman collections are available, and they are recommended for new users seeking a quick and easy start with the API.
- Connectors
  - The following are lightweight libraries that work as connectors to the Binance public API, written in different languages:
    - [Python](#)
    - [Node.js](#)
    - [Ruby](#)
    - [DotNET C#](#)
    - [Java](#)
    - [Rust](#)
    - [PHP](#)
    - [Go](#)
    - [TypeScript](#)
- FIX Connector - This provides access to the exchange using the FIX protocol.
  - [Python](#)
- [Swagger](#)
  - A YAML file with OpenAPI specification for the RESTful API is available, along with a Swagger UI page for reference.
- [Spot Testnet](#)
  - Users can use the SPOT Testnet to practice SPOT trading.
  - Currently, this is only available via the API.
  - Only endpoints starting with `/api/*` are supported, `/sapi/*` is not supported.

## Contact Us

- [Binance API Telegram Group](#)
  - For any questions regarding sudden drop in performance with the API and/or Websockets.
  - For any general questions about the API not covered in the documentation.
- [Binance Developers](#)
  - For any questions/help regarding code implementation with API and/or Websockets.
- [Binance Customer Support](#)
